Rob Pilewski Lesson Opportunities and programs

Where, How, and What: I'm a Pennsylvania native who along with my wife, Avis, are the proud parents of two lovely daughters. I graduated from the Professional Golf Management program at Methodist University (Fayetteville, NC) with a major in Business Administration. While at Methodist, I played four years on the varsity golf team where I led our team in winning the individual title of the 1990 Collegiate National Championship and in 1991, I finished as the individual runner-up. With a wealth of influences, I have assembled decades of golf knowledge into a philosophy of *Fun First* mixed with proven fundamentals. I will use my own golf experience and competitive tournament success to translate the complexities of the game into a teaching philosophy that simplifies rather than mystifies the game. Whether you are a beginner or an accomplished player, I will always be committed to equipping you with solid fundamentals that will lead to improved confidence through thoughtful practice plans for your individual success. My preference will always be to strengthen your game skills around your natural abilities and then apply that learning on-course lessons where you will learn stroke saving game management. My teaching and coaching methodology has always been centered around the individual skills and physical abilities of my students so that I can help them maximize their everyday enjoyment of the game. I believe that you will be amazed at how quickly you can start to develop true confidence in your ability to play the game at a level that will match your golfing goals. Come join me for many fun and unique opportunities on my lesson tee to learn how to improve your game to new heights. For additional social fun, please ask about group golf instruction/training such as 'Sip & Swing', 9-hole on-course play and many other creative and personalized coaching events for groups of 3 to 10 persons.

Lessons are given within a private teaching area on the Duke University practice range. Lessons may be arranged by calling 919.681.2288 for individual or group lesson scheduling.
